COPY 1 OF 2Contract No. A-101
Amendment No. 8The Ramo-Wooldridge Corporation
Los Angeles 45, California

Gentlemen:

1. This document constitutes Amendment No. 8 to Contract No. A-101, dated 31 March 1955, between the Ramo-Wooldridge Corporation, Los Angeles, California, and the United States of America.

2. Pursuant to the clause of this contract entitled "CHANGES," the Government does hereby amend this contract, as heretofore amended by Amendments numbers 1-7, inclusive, as hereinafter set forth.

3. In the GENERAL PROVISIONS of Contract No. A-101, add the following clause:

"38. RENEGOTIATION

This contract shall not be subject either to the provisions of the Vinson-Trammel Act as amended and extended (34 U. S. Code 496, and 10 U. S. Code 311) or to any other act of the Congress, whether heretofore or hereafter enacted, providing for the renegotiation of Government contracts."

4. Delete in its entirety the SCHEDULE to Contract No. A-101, as amended, and substitute in lieu thereof "SCHEDULE (Revised May, 1956)," the document attached hereto. Such revised schedule restates work previously contracted for, expands the scope of work previously contracted for, and requires certain additional work to be performed by the Contractor under this contract.

5. The Government and the Contractor hereby agree as follows with respect to estimated costs set forth in this contract for production of equipment resulting from R&D work performed under this contract:

a. Quantities of production items called for under this contract are, in many cases, minimal and estimated costs submitted by the Contractor reflect this condition since no opportunity is presented in such instances to achieve economics in production through the established methods of quantity purchasing of components and by establishment of production line type of manufacture of such items.
